Introduction

The information compiled in this publication was derived essentially from annual reports submitted to the Library Commission as stipulated in state statutes. (Revised Statute of Nebraska 51-407)

The Directory section is arranged alphabetically by community with type of library given in this order:

Public Libraries
Academic Libraries
State and Federal Government Libraries
Hospital or Health Related Libraries
Other Kinds of Libraries

The listing of libraries in the first two categories above should be fairly complete for the state. The listing for other types of libraries is less consistent, however, because data from those types of libraries is not routinely submitted. Data pertaining to school libraries is compiled by the Nebraska Department of Education. Educational Service Unit media centers are listed in this directory if the media center has a director or librarian.

A number of symbols or abbreviations are used throughout the directory to indicate particular characteristics or available services. They are:

☆--Indicates libraries which are participating members of the Nebraska Library Union Catalog. The holdings of these libraries are listed in NEUCAT, and the libraries serve as state resource libraries.

RRL--Indicates libraries which have contracted with the Nebraska Library Commission to serve as Regional Resource Libraries.

NeLCmS--Indicates libraries connected into the Nebraska Library Communications System, a computer based telecommunications network. The number which follows the symbol is the code identification number for that library.

NEBASE--Indicates libraries that are members of the Nebraska consortium of libraries using products and services of OCLC, Inc. (Online Computer Library Center)

US Depository--Indicates libraries which have been designated by the Federal government as depositories of U.S. government publications.

NE Depository--Indicates libraries which have been designated by the Nebraska Library Commission as depositories of Nebraska State government publications.

These libraries offer special service facilities for readers who are blind or physically handicapped:

Nebraska Library for the Blind and Physically Handicapped, Lincoln
Subregional Library for the Blind and Physically Handicapped, North Platte Public Library
Nebraska School for the Visually Handicapped, Nebraska City
Nebraska School for the Deaf, Omaha

Omaha Public Library maintains a TTY facility for deaf readers, and issues machines for playing Talking Books.

NEBASE...

A CONSORTIUM OF NEBRASKA LIBRARIES

NEBASE was formed in 1976 so that Nebraska libraries could have access to the computerized library services of OCLC, Inc. OCLC, Online Computer Library Center, is a national not-for-profit computer library service and research organization. The Center operates an international computer network that libraries use to acquire and catalog books, order custom printed catalog cards, arrange interlibrary loans, and maintain location information on library materials.

NEBASE is one of eighteen regional networks that contract with OCLC to provide various computer related services to their member libraries. Starting originally with several academic libraries in the state, NEBASE currently includes the following members:

American Historical Society of Germans from Russia, Lincoln
Bellevue Public Library
Concordia Teachers College, Seward
Creighton University Reinert/Alumni Library, Omaha
Creighton University Klutznick Law Library, Omaha
Creighton University Health Sciences Library, Omaha
